

Run In Guide for Rotax Max 125 (unrestricted)

Downloaded from www.kartmart.com.au

Follow this guide in a 20 minute session. Carby will use 168 jet.

First 10 minutes:

Using full throttle, rev the engine 4000rpm to 8500rpm. Then brake to slow down to 4000rpm. Repeat this for the session.

Second 10 minutes:

Using full throttle, rev the engine 8000rpm to 12000rpm. Repeat this for the session.

This is only a guide. If you are finding your engine does not want to run to these settings (ie fouling plugs), please contact us on (08) 9358 5800 or via email kartmart@kartmart.com.au
